## NO. 5 STANDARD DOORS

**CURTITIONS** are made in three series—the **Stock**, the **Standard**, and the **Custom**. The **Stock CURTITIONS** come in two popular door sizes (see chart) while the **Standard CURTITIONS** are built to predetermined sizes (see chart). The same, sturdy, all steel frame construction and fine workmanship are built in all **CURTITION** Accordion Doors. The **Stock** and **Standard** doors are lower in price, and are just as beautiful as the **Custom** size door. **Stock CURTITIONS** are available for immediate delivery in three neutral colors. In planning door openings in new construction, take advantage of the low cost, beauty, and utility of the **Stock** and **Standard CURTITION** Accordion Doors.

"C" = COMPRESSED DIMENSION

CURTITION # 5 Stock and Standard Doors have Compressed Ratio of 8" to 1" plus 2" for the Post.

WESTWOOD OFFICE

## SAVE MATERIAL, SAVE LABOR, SAVE DOLLARS

Savings of labor and materials are made with **CURTITION**. Save on jambs, stops, hardware, trim, hinges, paint... save on time and labor to install (install **Stock CURTITIONS** yourself in 20 minutes or less) ... in fact, **CURTITION** actually costs less than other types of folding or sliding doors.
